

Texarkana Metropolitan Transportation Plan Update

What is an MPO?

A Metropolitan Planning Organization (MPO) is a "forum for cooperative transportation decision-making for the metropolitan area." The Texarkana MPO strives to meet regional transportation needs through planning and programming, while being responsive to community interests and local policies.

What is an MTP?

A Metropolitan Transportation Plan (MTP) is a fiscally constrained 20+ year plan that identifies how the metropolitan area will manage and operate a multi-modal transportation system including transit, highway, bicycle, pedestrian, and ADA accessible transportation. An MTP outlines how the area plans to allocate Federal, State, and Local transportation funding for regionally significant projects.

What is Performance-Based Planning?

Performance-based planning uses a variety of clear, reliable, and credible data driven measurements to set realistic targets at an appropriate level of detail, in order to achieve or move towards agency and community goals.

Performance goals are broad statements that describe an area's vision.

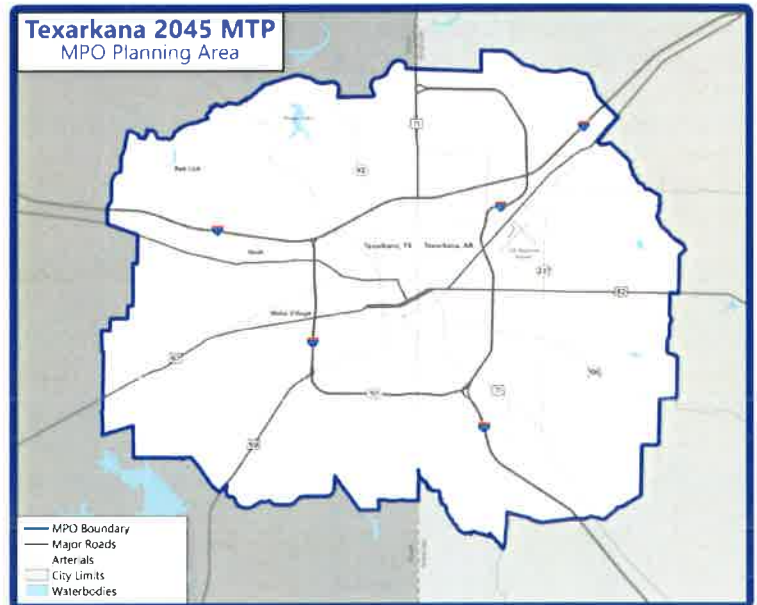

Performance measures are metrics used to assess progress toward meeting specified goals.

Performance targets are the specific level of performance that is desired to be achieved within a certain time frame.

How can I get Involved?

Check the MPO website for status updates (via www.texarkanampo.org).

Request a presentation for your organization by reaching out to the MPO at the website listed above.

Attend upcoming public engagement meetings in 2019. These meetings will be scheduled at a later date and posted on the MPO website.
